

- We organize a visit to the forest near the area where we live.
- We observe space, animals, plants, what is happening around us.
- We discuss: what we see, what we hear, what we touch, what we smell, what we feel?
- Are there people in the area?
- What human interventions can we detect?
- We draw or photograph what impresses us and record various sounds.
- At school we can sort the drawings and photos according to the subject,
